

### ESSENCE OF JERUSALEM

An invigorating perfume from the ancient city of Jerusalem has been created using essences extracted from 90 different plants growing in and around the city and the surrounding desert, all of which were picked at dawn to ensure peak freshness. The essences used in the perfume are created using proprietary techniques and an exclusive formula developed by one of the leading and worldwide known perfumeries together with the company's experts. Essence of Jerusalem was not tested on animals and included with each bottle is a scroll containing a detailed explanation of its origins in several languages. One percent of the company's turnover is donated to a local cancer association and a free kitchen and meal delivery service for distressed homes and orphans. The range includes a perfume spray for women, a toilette spray for men, anointing oil and a Dead Sea Minerals Soap. As an example of prices, the women's Eau de Perfume is sold in packs of 3 x 100ml for \$270.

### SKIN THINGS

Skin Things is an Adelaide-based company producing all-natural skincare products that are like food for the skin. Owner and founder Caroline Bugg started out in her kitchen experimenting with natural products on her own skin and on the bodies of her willing friends, and the results have seen the company develop from a small initial shop to a franchised company that now sells products to clinics and retail stores. Whether it be the Orange and Cinnamon Face Scrub, the Olive Oil Peppermint Foot Balm or the brown sugar based body scrub, everything from Skin Things smells good enough to eat. All products are free from chemicals and are not tested on animals. As an idea of prices, the 20g Calendula and Rose Eye Cream retails for a recommended \$35 while a skincare starter pack including a cleanser, toner and moisturiser is \$55. The company also has beauty consultants across Australia and organises pamper parties.

### ELIXIR OF THE BENEDICTINE MONKS

Norfolk Punch is a healthy non-alcoholic drink that was first created by the Benedictine Monks in the 13th century as a natural answer to "tenseness, tiredness and lowness of spirits." Original Norfolk Punch is made from the 700-year-old mediaeval monastic recipe containing over 30 herbs, berries and spices, with no alcohol, no preservatives, no artificial flavours and no artificial colouring. The refreshing drink, which is made in Australia to the original formula on a farm in the mountains near Kendall in Northern NSW, has a remarkable ability to induce a feeling of cheerfulness and wellbeing. It can be served hot or cold. The company also produces a host of other natural drinks, sauces, tonics and products.

**For more information, contact Norfolk Punch, ph: (02) 6559 4464, fax: (02) 6559 4532, email: [web@norfolkpunch.com.au](mailto:web@norfolkpunch.com.au), website: [www.norfolkpunch.com.au](http://www.norfolkpunch.com.au)**

### ISLAND DREAMING

Husband and wife team, Garrett and Connie Wesson, created Isola Luce candles after they discovered candles made from palm oil in Indonesia. After years of research and development the pair developed a high-end line made with quality ingredients including a blend of natural oils. Various wonderful islands inspire the range because palm oil is often found in exotic, tropical places. Some of the many fragrances in the range include Wild Tahitian Orchid and Kiss Me in Fiji – which is a wonderful blend of Japanese plum, kiwi, fresh melons with just a hint of pineapple. The candles come in beautifully designed boxes with a satin pillow and ribbon, making them a perfect gift, the company said. As an idea of prices, 5oz candles retail for a recommended \$35 while 9oz candles are \$55R.
